

DIARY NOTES

Executive Director-Comptroller

5 August 1965

1. Bob Bannerman advised me that at yesterday's briefing for the Director on communications the Director interested himself in BPAM and indicated that he wanted this name changed to something which would denote management information control. It may well be that the name should be changed, but we will need to give some further consideration to it.

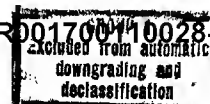

2. I had conversations with Tom Karamessines and [] about a paper on Ecuador which [] had not properly staffed out prior to submission to Dick Helms for release to the 303 Committee. They have withdrawn the paper to complete the staffing.

25X1

3. I attended the briefing of the Joint War Games Agency on their most recent war games exercise involving Vietnam. While I thought the briefing left something to be desired and it particularly indicated that the Blue Team (U.S. / Vietnam) was not militarily aggressive, nevertheless there was great interest in the games on the part of very senior people, i. e., General Wheeler (Chairman of the JCS), Governor Harriman, McGeorge Bundy, the Chiefs of Staff of the military services, and many others. It seems obvious that this high-level interest will continue and that CIA should make sure, as in this case, that it continues to put forth a first team to participate in these games.

4. Jack Earman and I discussed the JMWAVE housing allowance again and I undertook to speak to Dick Helms to see if he wants to let this alone or take a fresh look at the problem.
